

Venkata Sai Siddhardha Korada

+91 8555040810 | kvsaisiddhardha2117@gmail.com | GitHub | LinkedIn

EDUCATION

Degree	Institute	Score	Year
B.Tech CSE	St. Martin's Engineering College	9.45 CGPA	2024–2028
Intermediate	Sri Chaitanya Junior Kalasala	94.9%	2024
Class X	Kiran International School	83.7%	2022

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, SQL

Data Structures & Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues, Trees, Graphs, Hashing, Sliding Window, Two Pointers, Recursion, Backtracking, Dynamic Programming, Sorting, Searching, Binary Search

Web Development: HTML, CSS

Database Management: MySQL, Constraints, Joins, Views, Indexes, GROUP BY, Subqueries, Stored Procedures

Libraries & Tools: Git, GitHub, VS Code, Vercel, OpenCV, NumPy

Core Subjects: OOP, DBMS, Operating Systems, Discrete Mathematics

PROJECTS

Custom DSA Sheet Platform 2026
Designed and deployed a structured DSA preparation platform containing categorized coding problems, interview preparation roadmap and topic-wise practice sheets using HTML, CSS and Vercel deployment.

Smart Traffic Management System using Python 2025
Developed a real-time traffic congestion optimization system using Python and OpenCV for vehicle detection, traffic density estimation and adaptive signal timing algorithms.

EXPERIENCE

Self-Initiated Technical Projects 2025 – Present

- Developed multiple technical projects using Python, Java, C++, SQL and Web Technologies.
- Solved 200+ Data Structures and Algorithms problems to strengthen coding, debugging and analytical skills.
- Published technical documentation and implementation guide as an eBook on Amazon.
- Maintained GitHub repositories with proper version control and project management practices.
- Shared coding resources, DSA strategies and development insights through LinkedIn developer community.

COURSES & CERTIFICATIONS

- NPTEL Elite Certification in Problem Solving Through Programming in C
- NPTEL Elite Certification in Joy of Computing using Python
- Completed Data Science Course covering Python, NumPy, Pandas, SQL, Machine Learning, Deep Learning, Git and AI concepts
- Practiced SQL concepts including Constraints, Joins, Views, Functions, Indexes and Stored Procedures
- Consistently practicing DSA and problem-solving through coding platforms and structured learning roadmaps

ACHIEVEMENTS

- Published technical eBook on Amazon explaining Smart Traffic Management System implementation
- Built and deployed public DSA preparation platform for coding interview practice
- Maintained consistent coding practice and technical learning roadmap
- Developed strong foundation in Data Structures, Algorithms and Computer Science fundamentals
